

IN THE SPECIFICATION

Please replace paragraph [0045] with the following amended paragraph:

[0045] FIGs. 5A-5D are exemplary graphical user interface screens that illustrate how an application 120 may utilize consolidated annotation data when displaying corresponding user data (test results in the example). As illustrated in FIG. 5A, the consolidated annotation data 523 is typically not displayed, by the GUI screen 522, in its raw format, but may be maintained as "hidden" fields and utilized in various ways. However, the consolidated annotation data 523 may be parsed to identify annotated cells 125 (or rows 124), for example, based on the Linking Value and Data Column name fields.
